MOH Team Co-ordinator Checklist (BCUHB – West)

TICK

□ Declare "We have a massive haemorrhage"

□ **Phone 3333 and say "Massive haemorrhage". Give obstetric location**

Get Senior Help :

□ Consultant Obstetrician notified

□ Consultant Anaesthetist notified

Delegate roles & responsibilities :

□ Team Co-ordinator **(undertaken by the Midwifery Shift Leader)**

□ Scribe

□ Telephone

□ Blood product checker

□ Cell salvage

Monitoring :

□ Basic monitoring attached (NIBP, Pulse Oximetry & consider CTG & ECG)

STOP HAEMORRHAGE :

□ APH / PPH pathway activated

RESUCITATE :

□ Initial resuscitation measures in progress (see red box)

Give :

□ 2nd Tranexamic acid 1g iv bolus stat

Give : **by 5 Minutes**

□ **O Neg. Packed red cells** **O Neg blood delivered**
if catastrophic haemorrhage **by porter**

Take blood for :

□ FBC (PURPLE)

□ 2nd ROTEM & Coagulation screen (2 x BLUE)

□ Crossmatch **two samples** (PINK)

□ U&E & Calcium (corrected) (ORANGE)

□ HemoCue

□ ABG

Contact blood bank urgently 5880 **by 10 Minutes**
(Office hours) or Pager 043 (OOH)

Start :

□ Warming blanket

□ Blood warmer

Request :
□ 4 units Packed red cells
□ Information on platelet availability

Optimise coagulation :
□ Review & act on ROTEM results :
FIBTEM A5 : 7 – 11mm give 4g Fib. Conc. (or request 10 units (2 bags) Cryoprecipitate)
< 7 mm give 6g Fib. Conc. (or request 15 units (3 bags) Cryoprecipitate)

EXTEM CT : > 75 sec. request 4 units (15ml/Kg) FFP

□ Review Platelet Count : If plts < 75 request 1 – 2 doses Platelets

Consider :
□ Blood cell salvage

TRANSFUSE BLOOD PRODUCTS (Don't delay blood transfusion because of PBARS, it can be done later)

REASSESS THE PATIENT : **AIMS:** Hb 80 - 100g/l FIBTEM A5 >12mm Fib > 2 g/l
Plt > 75 EXTEM CT < 75 seconds
PT ratio < 1.5 Ca^{2+} (ionised) (from ABG) > 1.13 mmol/l
APTT ratio < 1.5 pH > 7.35 Temp > 36.0 C

Consider calling for :
□ Gynaecological oncologist
□ Vascular surgeon
□ Interventional radiologist

Take repeat blood for :
□ FBC (PURPLE) **by 20 Minutes**
□ ROTEM & Coagulation screen (2 x BLUE) **Group specific**
□ U/E & Calcium (corrected) (ORANGE) **blood available**
□ HemoCue
□ ABG

Contact blood bank urgently 5880
(Office hours) or Pager 043 (OOH)

Request :
□ PRC **-** 4units

Consider request for :
□ Consultant Haematologist advice
□ Recombinant factor VIIa

TRANSFUSE BLOOD PRODUCTS **by 30 Minutes**
& REASSESS THE PATIENT **X-matched blood available**

If major haemorrhage continues
<u>or</u> aims of transfusion therapy not achieved

GEWR May 2024
