ICU Ventilator Escalation plan.

Order of preference for ICU ventilators in the event that demand is or is likely to outstrip capacity of normal ICU ventilators:

Severe Acute Respiratory Infection (including COVID) patients or other significant Respiratory pathology (eg ARDS, severe bronchospasm)

1. Drager Ventilator
2. Hamilton T1 ventilator
3. Braeus Vivo 55 Ventilator
4. Drager anaesthetic machine
5. Oxylog 3000
6. Trilogy Evo
7. Trilogy 202

Non-SARI / Non-COVID (eg post op, overdose, neurological disorder, sepsis without ARDS).

1. Drager anaesthetic machine
2. Braeus Vivo 55 Ventilator
3. Oxylog 3000
4. Drager Ventilator
5. Trilogy Evo
6. Hamilton T1 ventilator
7. Trilogy 202
